

July 2010 - Clayton Shagal gels are on sale at 25% off.

We have been doing extremely well with our new skin care line. The two main products are the collagen gel and elastin gel which penetrate into the dermal layer, deeper where it is needed. The collagen gel strengthens and increases collagen, so great for anti-aging, lines, wrinkles, pores, and skin tone and texture. The elastin gel is wonderful for improving the elasticity of cells for skin firmness and tightening. Both are excellent for rosacea and redness and we have received amazing feedback from our staff and clients. Regular price is \$110, now on sale for \$82.50 each.
